MTI Wireless Edge Ltd. (the 'Company')

\$1.8m Order for Military Application

MTI Wireless Edge Ltd., (ticker: MWE) ('MTI' or 'the Company'), a market leader in the manufacture of flat panel antennas for fixed wireless broadband, today announces that it has received an order from an existing client for the development and manufacture of Military antennas.

The value of the order is approximately US\$1.8 million with deliveries over the course of 3 years, while most of the work performed in 12 months period. This order represents one of the largest military orders ever received by the Company.

Dov Feiner, Chief Executive Officer, of MTI commented: "We are delighted with this order for military antennas which provides an important revenue stream for the Company, as well as involvement with such very forefront of antenna technology".

"As the leader in our field MTI is the only company with the technical expertise and capability to provide high specification products for military application as well as industry leading antennas for the commercial, high volume market."

About MTI Wireless Edge

MTI designs and manufactures flat panel antennas, largely supplied to international OEMs of fixed broadband wireless access systems. With over 30 years of technical 'know-how', flexible high volume manufacturing capabilities and low failure rates, MTI's antennas now comprise approximately 25% of the global fixed broadband wireless antenna market. In addition, the Company has successfully developed products for new commercial applications as wireless systems become increasingly prevalent in new markets.
